

Guide d'installation softphone Webex

The screenshot displays a Webex workspace interface. At the top, it shows the user's profile 'Working from home' and a search bar. The left sidebar contains navigation options: 'All', 'Direct', and 'Spaces'. Under 'Spaces', there are several items including 'Sprint Review Web Development', 'Clarissa Smith', 'Design Continuum' (selected), 'Matthew Baker', 'Marketing Collateral', and 'Other' with members like 'Umar Patel', 'Common Metrics Usability research', 'Emily Nakagawa', 'Darren Owens', 'Advertising Marketing Department', and 'Visualizations'. The main area shows the 'Design Continuum' team space. It has tabs for 'Messages', 'People (30)', 'Content', 'Schedule', and 'Apps'. A 'Meet' button is in the top right. Below the tabs, there are sections for 'Add people', 'Moderators' (Clarissa Smith, Matt Park, Matthew Baker), and 'Participants' (Emily Nakagawa, Umar Patel, Darren Owens, Isabelle Brennan, Giacomo Edwards, Brian Cordova). A 'Moderated space' warning is displayed on the right, stating: 'This is a moderated space. To add or remove members, or to edit the team settings, send a message to a team moderator and ask them to do it for you. You'll find a moderator at the top of the Members list.' A cartoon illustration of a cat sitting next to a fishbowl is also visible.

1. Télécharger l'application Webex calling
2. Installer l'application
3. Connection à l'application

1. Télécharger l'application Webex calling

a. Ouvrir un navigateur internet

b. Entrer l'url suivant : <https://www.webex.com/downloads.html>

c. Choisir son système d'exploitation

2. Installer l'application

Attendre la fin du téléchargement
